Course Requirements

Intercultural Development Inventory (IDI) Pre and Post-Assessment

The IDI is an online assessment tool that measures our intercultural development. It contains 50 questions and takes about 20 minutes to complete. All ICL students take the IDI at the beginning and the end of the course. Your final grade will not be based on the results of the IDI, but you must complete it twice in order to pass the course. Your instructor will provide you with the login information. The results allow CIEE to analyze the effectiveness of the ICL curriculum and measure the overall intercultural learning of our students.

Homework & Cultural Partner Activities

Homework will include assigned readings and activities to complete outside of class. You are responsible for completing the homework outlined in the syllabus and asking for clarification when needed. You should bring copies of any readings due that day to each class with you, as we may need the readings in class.

As part of this course, you are required to identify a Cultural Partner – someone who has been a resident of the host culture for many years – with whom you will need to complete several activities throughout the semester. More information about choosing a Cultural Partner will be provided in class.

Journal (6 entries)

You will be asked to complete six different reflective journal entries over the course of the semester. You are free to write about whatever is on your mind at the moment as long as it is relevant to the course; you will be provided with ideas and suggestions for possible topics to address throughout the course of the semester. The goal of the journal entries is to give you a chance to reflect on your intercultural experience in a personally-relevant way.

As outlined in the schedule, two entries each are due at three different points throughout the semester.

Your journal entries should be typed and no more than two double-spaced pages.

Mid-Semester Cultural Comparison Project

The mid-semester Cultural Comparison Project involves writing a paper and doing a short in-class presentation.

For this project, you are asked to examine a theme within the local host culture in comparison to your home culture(s) (as defined by you). Themes may be any topic that is of interest to you and relevant both in the local context and in your home culture, and should be relatively specific rather than sweepingly general. Examples of possible themes include: food and eating habits; attitudes and practices around alcohol consumption; displaying affection; parenting; inequality and difference (based on religion, sexuality, race, etc.); expectations in higher education; exercise or

sport; news consumption; advertising; etc. The topic/theme you choose should be something you have experienced or had close contact with in both your host and home cultures.

Please discuss the similarities and differences between your home and host cultures with regards to your topic of choice, particularly with respect to two or three of the cultural value patterns discussed in class. You should aim to integrate personal experience with concepts learned in class.

The paper should be typed, double-spaced, and between 4-5 pages. It may be written in the first person. You should cite at least **three** academic sources (from the course readings or other). It is also highly recommended **you consult with at least two locals** (such as your Cultural Partners) about this topic and incorporate any useful insight they offer into your paper (although be careful not to present anyone's opinions as fact).

You should address the following:

- What similarities and differences have you noticed and/or experienced between (as well as within) your host culture and home culture(s) with regards to your chosen theme?
- To what extent and how do cultural value patterns help you understand these similarities and differences?

In addition to the paper, you should be prepared to present to the class on your topic in class 14. The presentation may take any form you like and creativity is encouraged.

Final Digital Storytelling Project

As a final project for this course, you will be creating a Digital Story. Digital Storytelling involves short (three- to five-minute) first-person stories combined with still images (and often music). Through this means, you will share your own personal story of the study abroad experience. More information will be provided soon. You will need access to iMovie (for Macs) or Windows Movie Maker (for PCs), both available to download for free.

Participation

Participation is valued as meaningful contribution in the digital and tangible classroom, utilizing the resources and materials presented to students as part of the course. Meaningful contribution requires students to be prepared in advance of each class session and to have regular attendance. Students must clearly demonstrate they have engaged with the materials as directed, for example, through classroom discussions, online discussion boards, peer-to-peer feedback (after presentations), interaction with guest speakers, and attentiveness on co-curricular and outside-of-classroom activities.

Regular class **attendance** is required throughout the program, and all unexcused absences will result in a lower participation grade for any affected CIEE course. will
