Course Description
This course is offered for students who are able to converse with ease and confidence when dealing with the routine tasks and social situations of the Intermediate level; and demonstrate a clear understanding of the Thai writing system. The aim of the course is (1) to improve student’s verbal communication skills in order to participate in some informal and formal conversations. (2) to enhance students’ communication capabilities in reading and writing at both casual and academic levels, and (3) to use the issues that the program looks at as tools to understand other ways of life while staying in various communities. Course materials are taken from current literature sources, newspapers, and current articles on focus issues.

The course content is divided into two parts. The first part focuses on enhancing students’ vocabulary and grammatical knowledge in order to increase their communicative competence in speaking, reading, and writing Thai. For the second part, students will gain deeper insight into various social and environmental issues and be able to discuss with people who are affected by those issues in Thailand.

Learning Objectives:
- Students will understand, make basic requests, and meet daily needs by communicating in Thai
- Students will be able to describe, narrate, and ask/answer questions in Thai about a variety of topics related to family, daily activities, eating, and traveling.
- Students will feel comfortable using Thai language in any setting
- Students will be able to read and write at both casual and academic levels
- Students will learn and use the ‘Issue-Based’ language as a tool to discuss with and understand villagers who are affected by various social and environmental issues

In order to determine how well students demonstrate competency in learning Thai on this program, students will have an oral proficiency test based on the American Council on the Teaching of Foreign Languages (ACTFL) guidelines twice during the semester. The aim of this assessment is to help students reflect on their progress in Thai and know their language proficiency level in the event of further Thai study.

The format of testing will be a 15-20 minute response to visual prompts and simulated situations. It will be an online test which allows the students enough time to complete the task without intervention. The student’s performance will be compared to the criteria outlined in the ACTFL Proficiency Guidelines 2012 – Speaking as well as the Interagency Language Roundtable (ILR) scale. The comparison of ACTFL and ILR proficiency scales are:
