Course name: Spanish Language - Beginning I
Course number: SPAN 1001 BAAR
Programs offering course: Open Campus
Open Campus Track: Language, Literature and Culture
Language of instruction: Spanish
U.S. semester credits: 3
Contact hours: 60
Term: Spring 2019

Course Description
This course is for students with one or two semesters of college-level Spanish. The course provides a basic repertoire of linguistic elements and sufficient vocabulary to meet these communicative goals. Students should be able to use some simple grammatical structures and in general be able to pronounce in a clear, comprehensible way. By the end of this course, students can communicate when carrying out everyday tasks, understand phrases and expressions of common use, and describe aspects of their own past as well as issues related to their most immediate needs.

Learning Objectives
• Develop the basic standards to comprehend and produce communicative Spanish speeches in the form of oral interventions and written compositions.
• Apply grammatical structures needed to accomplish given communicative tasks, as well as the vocabulary and relevant information about the context (cultural awareness).
• Construct communicative speeches that allow for exchange with native speakers on simple, practical subjects regarding everyday life and the personal sphere.

Course Prerequisites
None.

Methods of Instruction
Students will do their learning both inside and outside the classroom. The goal is to create a real and engaging learning environment that caters for their linguistic needs throughout the course. On each individual task, students will learn and practice the grammatical structures needed to accomplish the task, as well as the vocabulary and relevant information about the context (cultural awareness).
In the classroom, an emphasis will be placed on communication over grammar, but students will also have access to extra material to practice on their own or do as homework to consolidate key grammar points and basic language structures.
The structure of each week is as follows:
  • The tasks will be organized by weekly topics, so that each session of a week
is related to the others.

- At the end of each week, students will have to do a written and oral presentation and a mini test with a focus on the grammatical/lexical content covered over the week.
- Students will be provided with extra material as homework to reinforce the grammatical and lexical aspects seen in the classroom.
- Each of the presentations and tests will count for the final grade.

**Assessment and Final Grade**

Final grades will be calculated using the following percentages:

1. Daily Homework 15%
2. In-class Oral Presentations and Written Weekly Projects 25%
3. Weekly Tests 20%
4. Final Test (Oral and Written) 20%
5. Class Participation 20%

**Course Requirements**

**Daily Homework**
Students will be given written homework daily to reinforce the grammatical and lexical topics covered in the classroom and will be checked by the instructor in class everyday. When homework must be turned in, no extension can be granted. Failing to complete their daily homework will result in a lower final grade for the course.

**Oral Presentations and Written Weekly Projects**
Each week students complete a short-written project, which they will present to the class through an oral presentation at the end of the respective week. Both the delivery of the presentation and the written project will be assessed. Failing to complete their oral and written weekly projects will result in a lower final grade for the course.

**Weekly Tests**
At the end of each week, students will have to sit a mini-test where they will be assessed on the grammatical and lexical content of the week. Each of the weekly assessment will count for the final grade.

**Final test**
The Final test that will take place in the last week of the course covers the four skills of language learning: speaking, listening, reading, writing.

**Participation**
Participation is valued as meaningful contribution in the digital and tangible classroom, utilizing the resources and materials presented to students as part of the course. Meaningful contribution requires students to be prepared in advance of each class session and to have regular attendance. Students must clearly demonstrate they have
engaged with the materials as directed, for example, through classroom discussions, online discussion boards, peer-to-peer feedback (after presentations), interaction with guest speakers, and attentiveness on co-curricular and outside-of-classroom activities. Each student is expected to actively participate in class, and thereby help ensure the effective functioning of the course as well as his/her individual learning progress. Participation and the investment of an appropriate amount of time in the preparation of each session will be considered in the determination of final grades.

**Attendance Policy**
Regular class attendance is required throughout the program, and all unexcused absences will result in a lower participation grade for any affected CIEE course. Due to the intensive schedules for Open Campus and Short-Term programs, unexcused absences that constitute more than 10% of the total course will result in a written warning. Students who transfer from one CIEE class to another during the add/drop period will not be considered absent from the first session(s) of their new class, provided they were marked present for the first session(s) of their original class. Otherwise, the absence(s) from the original class carry over to the new class and count against the grade in that class. For CIEE classes, excessively tardy (over 15 minutes late) students must be marked absent. Attendance policies also apply to any required co-curricular class excursion or event, as well as to Internship, Service Learning, or required field placement. Students who miss class for personal travel, including unforeseen delays that arise because of personal travel, will be marked as absent and unexcused. No make-up or re-sit opportunity will be provided. Attendance policies also apply to any required class excursion, with the exception that some class excursions cannot accommodate any tardiness, and students risk being marked as absent if they fail to be present at the appointed time.

Unexcused absences will lead to the following penalties:
