

CIEE Global Institute – Santiago (CH)

Course name:	Directed Independent Research
Course number:	(GI) INDR 4901 STCH
Programs offering course:	Open Campus
Open Campus track:	Academic Projects
Language of instruction:	English
U.S. semester credits:	3/ 4.5 Quarter Hours
Contact hours:	100 hours (plus faculty advisor meetings 15 hours)
Term:	Spring 2020

Course Description

CIEE supports qualified students who wish to pursue an academically rigorous independent research project while abroad. To enroll, students must submit a research proposal including a clearly defined research topic, explanation of research plans, description of preparation in the planned area of study, list of resources, tentative outline of a final paper, and suggested schedule of progress. Students complete a total of 100-120 hours of research and meet regularly with an advisor to complete an academically rigorous, ethically sound, and culturally appropriate research project and final research paper. Approval for participation in Directed Independent Research must be obtained from CIEE and the student's home institution prior to arrival on the program.

Learning Objectives

By the end of this course, students will be able to,

- Conduct ethical research.
- Analyze primary and secondary source materials.
- Extrapolate relevant content.
- Make contributions to current research and exchange ideas with professionals in prospective fields.
- Develop a scholarly research paper with a defensible argument, supported by evidence and accurate citations.
- Suggest additional research to be conducted in prospective fields.

Course Prerequisites

Approval for participation in Directed Independent Research must be obtained from CIEE and the student's home institution prior to arrival on the program

Methods of Instruction

Students will meet with faculty advisors frequently, the total of these meetings comprising approximately 15 hours. This will ensure academic integrity and direction throughout the research process. Additionally, students will conduct approximately 100 independent research hours. Depending on the topic and subject area, students may choose to do field research through service learning. Students who request fieldwork research need to prove an advanced level of conversational Spanish.

Assessment and Final Grade

1. Faculty Advisor Meetings	20%
2. Research Paper	40%
3. Annotated Bibliography	10%
4. Final Presentation	20%
5. Research Field Notes	10%
TOTAL:	100%

Course Requirements

Faculty Advisor Meetings:

During the meetings, students receive feedback and advisement on their projects. Students will collaborate with faculty to schedule appropriate meeting times. To structure projects, a research schedule with project milestones will be outlined at the first meeting.

Each meeting student will discuss with faculty the advances and findings of the fieldwork and research assigned by the agenda

Research Paper:

Students will conclude the term with a research paper that evidences their proposed project. In addition, the paper will include a literature review, a methodology and suggestions for future research. Exact scope and scale of the paper will be agreed to by student and faculty mentor.

Final Presentation:

Students will present their findings in a presentation. Each presentation will address the main question or impetus for the project, milestones and final results. A panel of academics will provide

feedback.

Research Field Notes:

To better organize, each student will keep a well-documented journal of their notes and findings. This will be submitted to faculty advisors and will be graded on organization and progress of research.

Weekly Schedule

- | | |
|---------------|---|
| Week 1 | Research Proposal and Annotated Bibliography
Components. Research trends and topics by disciplinary area, focusing on Chile.
Weekly Critical Question |
| Week 2 | Research Milestones
Field Notes
Weekly Critical Question. Starting point of discussion about students' projects.
Drafting a research project. |
| Week 3 | Methodology and Literature
Field Notes
Weekly Critical Question
First draft of the project and main findings will be discussed. |
| Week 4 | Research Status
Field Notes
Weekly Critical Question |
| Week 5 | Findings
During this week, the student can ask the instructor for an extra meeting to discuss or elaborate key components and solve doubts about the research project if this is needed. |
| Week 6 | Final Presentation will be delivered two days before the last |

week of the program ends. Student will present his/her findings to members of the faculty and other students who are conducting similar research. Open discussion will be facilitated by the Academic Director.

Final Paper will be submitted on the last day of the program.

Readings

Materials will be determined in conversation between student and faculty member. During the first week, the student will propose an initial list of materials to investigate; faculty mentor will amend and approve. Readings will further develop throughout the term.
