Course name:	Business Ethics and Leadership
Course number:	(GI) MGMT 3001 SYAU
Programs offering course:	Open Campus
Open Campus Track:	Business
Language of instruction:	English
U.S. semester credits:	3
Contact hours:	45
Term:	Spring 2020

Course Description

This course examines the philosophical foundations and basic principles of ethics as they apply to businesses and the environments in which they operate. Real-world case studies are used to provide students with insight into how businesses and organizations manage – and in some cases fail to manage – challenging ethical and moral dilemmas. Students also consider the particular responsibilities of business leaders in fostering ethical awareness and practices within the corporate context.

Learning Objectives

By completing this course, students will be able to:

- Understand and articulate (orally and in writing) the “business case” for ethical decision making, i.e. how one shows that ethical practices make for good business practices.
- Assess and apply core ethical concepts in the context of business decisions through the analysis of case studies, film scenes and/or improvisation theatre plays.
- Critically assess and evaluate in real-time (on the surface or latent) moral issues in a variety of business scenarios and role plays being acted out, e.g. in negotiation, communication and leadership situations.
- Apply sensitivity and awareness tactics and strategies of how business ethics may vary relative to a culture’s ideas of ethical and moral conduct, and to the corresponding business practices.
- Execute and model the behaviors of successful leaders managing toward an ethical business culture in further business practices.

Course Prerequisites

Students are highly recommended to have completed a level 2000 course in philosophy, critical theory, or business administration before completing this course.

Methods of Instruction

Through lectures and discussion, students will engage in core philosophical and moral concepts from our shared Western tradition and practice identifying and articulating them in business settings. Readings are assigned to help students gain familiarity with key ideas and terms, which they will then be expected to integrate into their oral and written work (including term paper and a final exam). Clips from films and TV that model intersections between ethical concepts and business will be used in class to provoke discussion and debate.

Assessment and Final Grade

1. Class Participation	20%
2. Case Study Responses	25%
3. Essay	20%
4. Group Presentations	25%
5. Final Essay	10%
TOTAL:	100%

Course Requirements

Case Study Response Papers

Students will write five reflective response papers to case studies from weeks two through to six. Each response paper is to be 450 words exactly (2250 words total). Work will be graded on the students' ability to identify, examine and critically reflect on most significant aspects in various cases studies, drawing on the readings and lecture content.

Essay

Students are expected to write a critical essay that evaluates the benefits and drawbacks of a rigorous culture of business ethics within a multi-national organisation. The paper should reference readings from the course. The word count is 750 words exactly.

Group Presentations

Students will form small groups and conduct presentations on 15-minutes in length on topics to be determined by the instructor. Student groups can choose one of two prompts to either examine and evaluate examples of good and bad leadership; or to evaluate business ethics in a global economy using examples.

Final Essay

Students will respond to essay-based essay, answering one of three questions of equal value. Their chosen response will be completed as an 'Open Book' response, requiring students to demonstrate the highest levels of familiarity of case studies and readings from over the course. Students will be expected to write a 1000-word response to their selected question. This assessment will be conducted through Canvas. All students must ensure their equipment is fully functional.

Participation

Participation is valued as meaningful contribution in the digital and tangible classroom, utilizing the resources and materials presented to students as part of the course. Meaningful contribution requires students to be prepared in advance of each class session and to have regular attendance. Students must clearly demonstrate they have engaged with the materials as directed, for example, through classroom discussions, online discussion boards, peer-to-peer feedback (after presentations), interaction with guest speakers, and attentiveness on co-curricular and outside-of-classroom activities.

Attendance Policy

Regular class attendance is required throughout the program, and all unexcused absences will result in a lower participation grade for any affected CIEE course. Due to the intensive schedules for Open Campus and Short Term programs, unexcused absences that constitute more than 10% of the total course will result in a written warning.

Students who transfer from one CIEE class to another during the add/drop period will not be considered absent from the first session(s) of their new class, provided they were marked present for the first session(s) of their original class. Otherwise, the absence(s) from the original class carry over to the new class and count against the grade in that class.

For CIEE classes, excessively tardy (over 15 minutes late) students must be marked absent. Attendance policies also apply to any required co-curricular class excursion or event, as well as to Internship, Service Learning, or required field placement. Students who miss class for personal travel, including unforeseen delays that arise as a result of personal travel, will be marked as absent and unexcused. No make-up or re-sit opportunity will be provided.

Attendance policies also apply to any required class excursion, with the exception that some class excursions cannot accommodate any tardiness, and students risk being marked as absent if they fail to be present at the appointed time.

Unexcused absences will lead to the following penalties:

<i>Percentage of Total Course Hours Missed</i>	<i>Equivalent Number of Open Campus Semester classes</i>	<i>Minimum Penalty</i>
Up to 10%	1 content classes, or up to 2 language classes	Participation graded as per class requirements
10 – 20%	2 content classes, or 3-4 language classes	Participation graded as per class requirements; written warning
More than 20%	3 content classes, or 5 language classes	Automatic course failure , and possible expulsion
