Course name:	Beginning Spanish Language II
Course number:	SPAN 1008 BAAR
Programs offering course:	Buenos Aires Summer Spanish Language
Language of instruction:	Spanish
U.S. semester credits:	4
Contact hours:	60
Term:	Summer 2019

Course Description

This course is designed for students with one to two semesters of college-level Spanish, or the equivalent as determined by a placement test. This course uses a communicative approach, focusing on what students can do with the language as much as on what they know about the language. By the end of this course, students understand the principal points of clear texts and writings in standard language; know how to describe in the past and to exchange information about daily routines, experiences, likes and interests. The linguistic elements and vocabulary that are taught prepare students to talk about frequent topics and deal with daily situations. Students should be able to understand a simple face-to-face conversation about practical issues and familiar subjects.

Learning Objectives:

- Take part in oral conversation production and comprehension to deal with familiar topics in Spanish both inside class and with native speakers.
- Make use of pertinent vocabulary, grammar structures and correct speeches to write simple but well-constructed texts on a familiar topic of general or personal interest.
- Describe and recount events in the present and the past.
- Give an opinion on familiar topics of general or personal interest using the correct structures in Spanish.

Course Prerequisites:

This course is designed for students with one or two semesters of college-level Spanish, or the equivalent as determined by a placement test.

Methods of Instruction

Students will do their learning both inside and outside the classroom. The goal is to create a real and engaging learning environment that caters for their linguistic needs throughout the course. On each individual task, students will learn and practice the grammatical structures needed to accomplish the task, as well as the vocabulary and relevant information about the context (cultural awareness). In the classroom, an emphasis will be placed on communication over grammar, but students will also have access to extra material to practice on their own or do as homework to consolidate key grammar points and basic language structures

The structure of each week is as follows:

- The tasks will be organized by weekly topics, so that each session of a week

is related to the others.

- At the end of each week, students will have to do a written and oral presentation and a mini test with a focus on the grammatical/lexical content covered over the week.
- Students will be provided with daily extra material as homework to reinforce the grammatical and lexical aspects seen in the classroom.
- Each of the presentations and tests will count for the final grade.

Assessment and Final Grade

Final grades will be calculated using the following percentages:

1. Daily Homework	15%
2. In-class Oral Presentations and Written Weekly Projects	25%
3. Weekly Tests	20%
4. Final Test (Oral and Written)	20%
5. Class Participation	20%

Course Requirements

Daily Homework

Students will be given written homework daily to reinforce the grammatical and lexical topics covered in the classroom and will be checked by the instructor in class every day. When homework must be turned in, no extension can be granted. Failing to complete their daily homework will result in a lower final grade for the course.

Oral Presentations and Written Weekly Projects

Each week students complete a short-written project, which they will present to the class through an oral presentation at the end of the respective week. Both the delivery of the presentation and the written project will be assessed. Failing to complete their oral and written weekly projects will result in a lower final grade for the course.

Weekly Tests

At the end of each week, students will have to sit a mini-test where they will be assessed on the grammatical and lexical content of the week. Each of the weekly assessment will count for the final grade.

Final test (Oral and written)

The Final test that will take place in the last week of the course covers the four skills of language learning: speaking, listening, reading, writing. It will consist on an video project with an oral component for students to present in the last day of classes. Students will also sit for a final exam covering all the topics seen throughout the course.

Participation

Participation is valued as meaningful contribution in the digital and tangible classroom, utilizing the resources and materials presented to students as part of the course. Meaningful contribution requires students to be prepared in advance of each class session and to have regular attendance. Students must clearly demonstrate they have engaged with the materials as directed, for example, through classroom discussions, online discussion boards, peer-to-peer feedback (after presentations), interaction with

guest speakers, and attentiveness on co-curricular and outside-of-classroom activities. Each student is expected to actively participate in class, and thereby help ensure the effective functioning of the course as well as his/her individual learning progress. Participation and the investment of an appropriate amount of time in the preparation of each session will be considered in the determination of final grades.

Attendance Policy

Regular class attendance is required throughout the program, and all unexcused absences will result in a lower participation grade for any affected CIEE course. Due to the intensive schedules for Open Campus and Short-Term programs, unexcused absences that constitute more than 10% of the total course will result in a written warning.

Students who transfer from one CIEE class to another during the add/drop period will not be considered absent from the first session(s) of their new class, provided they were marked present for the first session(s) of their original class. Otherwise, the absence(s) from the original class carry over to the new class and count against the grade in that class.

For CIEE classes, excessively tardy (over 15 minutes late) students must be marked absent. Attendance policies also apply to any required co-curricular class excursion or event, as well as to Internship, Service Learning, or required field placement. Students who miss class for personal travel, including unforeseen delays that arise because of personal travel, will be marked as absent and unexcused. No make-up or re-sit opportunity will be provided.

Attendance policies also apply to any required class excursion, with the exception that some class excursions cannot accommodate any tardiness, and students risk being marked as absent if they fail to be present at the appointed time.

Unexcused absences will lead to the following penalties:

Percentage of Total Course Hours Missed	<i>Equivalent Number of Open Campus Semester classes</i>	<i>Minimum Penalty</i>
Up to 10%	1 content classes, or up to 2 language classes	Participation graded as per class requirements
10 – 20%	2 content classes, or 3-4 language classes	Participation graded as per class requirements; written warning
More than 20%	3 content classes, or 5 language classes	Automatic course failure, and possible expulsion
