### **Course Description**

In this class, you will develop skills, knowledge, and understanding that will help you communicate and engage more appropriately and effectively in Barcelona as well as in other intercultural contexts. We will explore various topics in intercultural communication in the context of your experience abroad, and will practice intercultural learning processes that you can apply when working across difference in a wide variety of contexts. You will increase your own cultural self-awareness and develop personal leadership skills to help you become more effective in an interdependent world.

### **Learning Objectives**

By participating in this course, you will:

- Increase your own self-awareness, particularly your cultural self-awareness.
- Develop a deeper understanding of the field of intercultural communication and intercultural concepts/theories and their relevance to your own experience in the host culture.
- Increase your ability to recognize and bridge cultural gaps.
- Develop an intercultural leadership practice that helps you translate your culture-specific and culture-general knowledge into moment-to-moment competence.

### **Course Prerequisites**

None, other than an open mind and a sincere interest in exploring things intercultural, which will involve a deep level of self-reflection.

### **Methods of Instruction**

Learning will involve in-class exercises, active reflection, discussion, readings, field reports, short lectures, and out-of-class activities that help you engage in the local culture on a deeper level.

## **Assessment and Final Grade**

Grading will be based on the following:

- |  |     |
|--|-----|
| 1. Journal (6 entries):                      | 20% |
| 2. Mid-semester cultural comparison project: | 20% |
| 3. Homework & Cultural Partner activities:   | 20% |
| 4. Final Digital Storytelling project:       | 20% |
| 5. Class participation:                      | 20% |

## **Course Requirements**

### **Intercultural Development Inventory (IDI)**

All students must take the IDI pre- and post-assessment in order to pass the course. However, the results of the assessment are not calculated into the final grade.

### **Journal Entries**

You will be asked to complete six different reflective journal entries over the course of the semester. You are free to write about whatever is on your mind at the moment *as long as it is relevant to the course*; you will be provided with ideas and suggestions for possible topics to address throughout the course of the semester. The goal of the journal entries is to give you a chance to reflect on your intercultural experience in a personally-relevant way.

As outlined in the schedule, two entries each are due at three different points throughout the semester.

Your journal entries should be typed and no more than two double-spaced pages. They will be graded on the depth of reflection and application of course concepts to your personal experience.

### **Mid-Semester Cultural Comparison Project**

The mid-semester Cultural Comparison Project involves writing a paper and doing a short in-class presentation.

For this project, you are asked to examine a theme within the local host culture in comparison to your home culture(s) (as defined by you). Themes may be any topic that is of interest to you and relevant both in the local context and in your home culture, and should be relatively specific rather than sweepingly general. Examples of possible themes include: food and eating habits; attitudes and practices around alcohol consumption; displaying affection; parenting; inequality and difference (based on religion, sexuality, race, etc.); expectations in higher education; exercise or sport; news

consumption; advertising; etc. The topic/theme you choose should be something you have experienced or had close contact with in both your host and home cultures.

Please discuss the similarities and differences between your home and host cultures with regards to your topic of choice, particularly with respect to two or three of the cultural value patterns discussed in class. You should aim to integrate personal experience with concepts learned in class.

The paper should be typed, double-spaced, and between 4-5 pages. It may be written in the first person. You should cite at least three academic sources (from the course readings or other). It is also highly recommended you consult with at least two locals (such as your Cultural Partners) about this topic and incorporate any useful insight they offer into your paper (although be careful not to present anyone's opinions as fact).

You should address the following:

- What similarities and differences have you noticed and/or experienced between (as well as within) your host culture and home culture(s) with regards to your chosen theme?
- To what extent and how do cultural value patterns help you understand these similarities and differences?

In addition to the paper, you should be prepared to present to the class on your topic in class 14. The presentation may take any form you like and creativity is encouraged.

### **Homework & Cultural Partner Activities**

Homework will include assigned readings and activities to complete outside of class. You are responsible for completing the homework outlined in the syllabus and asking for clarification when needed. You should bring copies of any readings due that day to each class with you, as we may need the readings in class.

As part of this course, you are required to identify a Cultural Partner—someone who has been a resident of the host culture for many years—with whom you will need to complete several activities throughout the semester. More information about choosing a Cultural Partner will be provided in class.

### **Final Digital Storytelling Project**

As a final project for this course, you will be creating a Digital Story. Digital Storytelling involves short (three- to five-minute) first-person stories combined with still images (and often music). Through this means, you will share your own personal story of the study abroad experience. More information will be provided soon. You will need access to iMovie (for Macs) or Windows Movie Maker (for PCs), both available to download for free.

### **CIEE Barcelona Attendance Policy**

Students are expected to attend all scheduled class sessions on time and be prepared for the day's class activities. CIEE does not distinguish between justified or unjustified absences, whether due to sickness, personal emergency, inevitable transportation delay and/or other impediments. You are considered responsible of managing your own absences. Please keep in mind that exams, paper submission dates, presentations and any other course work deadlines cannot be changed.

No academic penalty will be applied if students miss up to 3 class sessions. If students miss up to 5 class sessions, students' final course grade will drop 5 points out of 100 on the CIEE grade scale for each additional absence beyond 3 (for example a 95 will become a 90 if they reach the 4th absence, and an 85 if they reach the 5th absence). **Students will automatically fail the course if they miss more than 20% of total class hours (i.e. if they exceed 5 absences).**

For students who miss up to 20% of the total course hours due to extenuating circumstances, the Academic Director may allow for exceptions to the local attendance policy based on documentation such as proof of bereavement, religious observances, hospitalization etc.

Students arriving more than 10 minutes late to the class will be considered absent for a day.

## **Weekly Schedule**

List your schedule of classes below for the full term, including orientation, holidays and scheduled program trips. Ask the Resident Director for program dates before scheduling classes. If there are required course related fieldtrips in addition to regularly scheduled classes, be sure to indicate that these are required.
