Assessment and Final Grade

Final grade will be the result of an average of the following components:

1. Exams (20% midterm, 20% final exam): 40%

2.	Assignments:	50%
	a. Selfie video tour:	05%
	b. Visual Essay:	05%
	c. Oral presentation:	10%
	d. Readings and homework (10 tasks, 1% each):	10%
	e. Research project:	20%
3.	Class participation:	10%

Course Requirements

Exams (40%)

Students must write **two exams** (a midterm and a final). Both exams will consist in a combination of test, short questions and essay questions on readings and on course content.

Assignments (50%)

Students will complete:

One selfie video project (5%)

Students must create a video of 2-3 minutes length, taken in front of a monument in Barcelona. The goal of this task is for students to explain a local monument to an “average American public”. Students must describe and analyze all the aspects of the monument, using 2 analogies with cultural artifacts of the American culture. In the explanation, they will justify the selection of these two analogies.

One visual essay (5%)

One of the most important skills for the student of Art History is the ability to make connections between different objects. Throughout the course, students will use the camera to draw parallels between the artworks they encounter, compiling 1 visual essay. Essay may take the shape of a <https://exposure.co/> site, which will contain the student’s own photographs of artworks, accompanied by text.

Each essay will contain 15 photographs with a clear connection to the topic. The essay will have a title and a header caption that presents and examines the topic and a conclusion at the end. Each individual image will be captioned with 2-3 sentences that analyze it in connection with the topic.

One Oral presentation (10%)

Students must perform 1 oral presentation. It will be about a topic (given by the professor during the first two classes) that will be presented to the classmates as an explanation of a subject in connection with the teaching plan. These presentations should have a length of about 10 minutes and be visualized with a PowerPoint or similar. They will be given at different dates specified & explained in the syllabus. The content of these presentations will be guided by the professor who will post on Canvas the questions that the students may cover in a thoughtful and in-depth way.

Readings and homework (10%)

Students must read 8 articles (provided by the professor) and watch 2 movies and complete a task related to them before the class. These articles or movies will be related to the content of the class, so no late homework will be admitted.

Research project (20%)

Students will complete a research project concerning a specific subject on art. The project will consist of an in-depth and comparative research in which students will explore the topic mainly using scholarly sources, performing a written document that will be submitted at the end of the semester.

The research project consists of 3 stages:

- Phase 1: Topic + Outline with bibliography. Students will select a topic from a list provided by the professor. If a student would like to work on a topic not on the list, they must first approach the professor for approval. Students will also submit an outline of their research together with their bibliography choice.
- Phase 2: Draft. Students will submit a draft of the research project which will be discussed by other students during the class
- Phase 3: Submission of the paper. Students must submit their paper to the professor the day of the poster presentations, before the class starts.

Additionally, students will give a three-minute presentation on their chosen subject. All presentations will take place on the last class before the final exam.

Format: The project will adopt the format of a poster. It will be submitted on Canvas in a pdf file size A1 (59.4 x 84.1 cm / 23.4 x 33.1 inch.). Images, charts, diagrams or any other visual resources useful for the research will be combined with the text on the poster. This must be visually appealing and well structured.

Bibliography: At least 6 scholarly sources must be used and listed in the bibliography. Students must consistently use a standard citation style of their choice (for instance, MLA, APA or Chicago. Wikipedia, instructor's materials, touristic and or personal websites and personal blogs are useful to get a first idea of the artwork, but they are not reliable sources and will not be accepted as references).

Class participation (10%)

Students are expected to participate in class by asking questions that show their active engagement in class and by being able to comment on the readings due for each session. The level of engagement with the class materials, as evidenced in written work and class participation, will be one of the factors of the final grade. Therefore, students are expected to actively participate in the course by:

- Asking and answering questions that show their engagement
- Commenting on the session's required readings and videos
- Being prepared for the day's activities
- Paying attention (actual attention rather than "civil" attention)
