Students are expected to actively contribute to the class discussion. Your participation grade will reflect the thoroughness of your preparation, your engagement in the exercise and the extent to which you make a connection between what you experience during the activity, your internship experience and concepts discussed in class.

Individual Meetings

The seminar is also combined with 3 hours of individual meetings with the Course Instructor, to review different aspects of the internship experience: the onsite tutor's evaluation, the intercultural adaptation process, the management of critical incidents, personal and professional skills, among others.

Meaningful contribution requires students to be prepared in advance of each class session and to have regular attendance. Students must clearly demonstrate they have engaged with the materials as directed, for example, through classroom discussions, online discussion boards, peer-to-peer feedback (after presentations), interaction with guest speakers, and attentiveness on co-curricular and outside-of-classroom activities.

A - Active and effective volunteering and oral participation in class, individual, with groups and with partners.

B - Some volunteering in class, effective and active work with partners.

C - Few responses in class but effective and active works with partners.

D - Concentrating on material presented, ineffective work with partners.

Portfolio Assignments

Students will be required to complete four assignments, specifically related to topics analyzed during seminar sessions.

- Assignment 1: SMART Goals for your internship. Students will be provided a worksheet to answer some question about their goals for their time in the program.
- Assignment 2: Critical Case at the workplace (CD). Students will be provided a worksheet about critical cases in the workplace to evaluate and comment on them, and to talk about their personal experiences on the workplace.

- Assignment 4: Creating your new Cover Letter. Students are expected to re-write their Cover Letter and/or Resume.

Final Paper / Oral Presentation

Students will be required to write a 9-10 pages paper (2000 words) on their internship experience, examining it in comparison to their home culture and incorporating themes analyzed during seminar sessions. The theme may be any topic that is of interest to the student and relevant to the internship experience and should be relatively specific rather than sweepingly general. It should be previously discussed with the Seminar Professor.

Please discuss the similarities and differences between your home and host cultures with regards to your topic of choice, particularly with respect to two or three of the cultural value patterns discussed in class. You should aim to integrate personal experience with concepts learned in class. You should cite at least three academic sources. It is also recommended you consult with a colleague from your Internship Placement.

Students will be required to present on their paper and share their experience with classmates (10-minute presentation), for which the use of audio-visual material is required. The presentation may take any form you like relevant to the theme and creativity is encouraged.

On-the-job Performance

The companies in which students will be interning will assign a tutor to monitor the students' performance in the designed placement. The tutor will assign a grade to the student at the end of the program which will reflect the level of satisfaction of the company with the student's duties.

Individual Meetings with CIEE Course Instructor

Students will have regular individual meeting, throughout the program, with the Internship coordinator to cover any issues that may arise between the students, and the companies or organizations they are interning with.
